Pro series 6 in 1 combo

CM02-HM6in1

Digital Control

Japanese digital time and temperature controls.

Heat Press

Plate size of 12x15 inch/ 29x38 cm and high quality.

Mug Heater

Dia. 6-7.5cm / 7.5 - 9 cm. 12 and 17oz.

Cap Heater

3.5x 6inch/ 9x15.5cm

Plate Heater

Plate size of 4.9 inch/ 12.6 - 5.9inch /15.2 cm.

Digital Control

Japanese digital time and temperature controls.

Mug Heater

Dia. 6-7.5 cm 7.5 - 9 cm/ 12 oz. - 17 oz.

Heat Press

Plate size of 12x15 inch/ 29x38 cm and high quality.

Plate Heater

Plate size of 4.9 inch/ 12.6 cm. - 5.9 inch/15.2cm

Pro series 4 in 1 combo

CM02-HM4in1

Manual 29x38 heat press machine

CM22-MAN2938

Digital Control

Japanese digital time and temperature controls.

Electrical plug

This plug is durable and easy to remove.

Heating Prints

Use to enhance technological Heating the effectiveness, stability and speed.

4 System

dampers
The damping system can effectively distribute pressure.

Digital Control

Japanese digital time and temperature controls.

Heat Press

Plate size of 12x15 inch/ 29x38 cm and high quality.

Mug Heater

Dia. 6-7.5cm / 7.5 - 9 cm. 12 and 17oz.
Mug and conic Glass.

Cap Heater

3.5x 6inch/ 9x15.5cm

Plate Heater

Plate size of 4.9 inch/ 12.6 - 5.9inch /15.2 cm.

Pro series 8 in 1 combo

CM02-HM8in1

Semi automatic Mug press

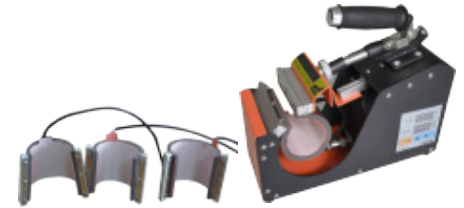

Resistance with aluminum rails to remove or insert the press in seconds.

Colormake's Professional Mug Press has the following benefits:

- 1 - It has the option to remove the current pad and replace it with another of different size in seconds without any difficulty.
- 2 - Small size, light weight and modern design which makes for minimal shipping costs.
- 3 - This machine is very stable and reaches the proper heat very quickly.
- 4 - Time setting and C and F to set temperature.

Application

You are able to sublimate high quality images in a wide range of products such as cups, bottles, glasses, of different materials, useful for promotions, advertising, or a gift to a friend or relative.

Sublimation Paper

CM23-SUBPAP

Allows for printing on any surface with polymer coating such as cups, coolers, textiles, aluminum and others. Boost your business with sublimation and increase your income. Promote your business with the best POP material

- Unsurpassed Quality.
- Brighter colors.
- Easy to Use.
- Durability.
- No Waste.

Applications

Sublimation Blanks,
Metallic glasses,
Cups, glasses, ceramics,
Aluminum and Textiles.

Characteristics

5760DPI Resolution
Packages of 100 and 20 Sheets
Size A4, A3, 24" and 42" rolls.
Heat Transfer Ink
High Absorption

Thermal Tape

CM24-THRMT6M

The thermal tape is used for sticking the sublimation paper with the design to the blank that will be printed, it is heat resistant and will not leave any marks on the substrate such as ceramic tiles, mugs and others.
